

Air Flow Release Liner™ Product Line

Ritrama expands its Print Media line with the introduction of our Air Flow Release Liner™. Our cast and calendered vinyl partners with our 90# patterned Air Flow Release Liner™ to create an easier and faster graphic installation for you.

Applications include point of purchase displays, trade show displays, outdoor signage, fleet graphics, and vehicle graphics, among others.

Features and Benefits:

- Easier and faster graphics installation
- Reduced wrinkling and air bubbles
- Repositionable adjustments can be made without damaging the film
- Ideal for irregular, curved or slightly curved applications
- Compatible with **conventional and UV screen, solvent, eco-solvent, and UV inkjet printing**
